

# EXQUISITE ELEVATION

These elevators introduce a spark into the modern home

## LIFTSHOP — FREEDOMLIFT

A classy alternative to strenuous stairs, the FreedomLift elevator is designed for flexibility and affordability. The elevator is a standard design, making it an easy option that doesn't have any confusing add-ons. Its design also makes it easy to install so there is minimal invasion of your home.

## LIFTRONIC — INDOMO

Suitable for both indoors and out, the InDOMO is the perfect option for a panoramic aspect. Such a design can offer spectacular views, as well as the perfect design aesthetic. It offers excellent functionality as well as good looks.

## GRANT ELEVATORS — THE EASY GLIDE

With a panoramic glass landing door, the Easy Glide is a hydraulic elevator that exudes style and modernity. A cost-effective elevator, its small shaft and space-saving design not only moulds well with any home environment, it also minimises the impact on the rest of your home. With infrared beam entrance protection and an automatic return-to-floor in the event of a power failure, this elevator is a safe option for your family.
