

◀ **WINNING DESIGN**

On the first day the Supermec 2 was unveiled at designEx in Melbourne this year, it was recognised by a panel of independent industry experts as the 2011 Best New Product for Building Technologies. This award not only recognises Lift Shop's technical innovation and new product excellence, it also acknowledges the superior quality and true luxury of Lift Shop lifts.

The Supermec 2 is the first post-hydraulic-era residential lift with an incredible power-failure-proof, energy-efficient, programmable traction drive system. Supermec 2 sets another new standard with the ability to travel up to 0.5m/s. Supermec 2 is available exclusively from Lift Shop, Australia's multi-award-winning luxury residential lift specialist.

▶ **GORGEOUS SUNRISE**

Introduced this year in Milan, this luxurious collection evokes a tranquil and harmonious ambience. Noble materials such as bird's eye maple veneer, iguana leather and stainless-steel handles combine to enhance the prestigious yet serene nature of this elegant design.

The Sunrise collection offers a complete lifestyle as it encompasses various items, ranging from dining suite options to consoles, lamps and vases.

The Sunrise bedroom suite has a deep-buttoned headboard which, when combined with the bird's eye maple veneer, creates a soft, sophisticated environment. This collection is available exclusively from Sovereign Interiors.

▶ **EXOTIC FORM**

The four-poster Tiger Leg bed is a wonderfully exotic piece handcrafted using selected first-grade plantation timbers. The classic yet rustic design has been traditionally carved by local Javanese artisans, featuring solid hand-carved tiger legs. The suave bed is available in teak or mahogany timber to suit any design sanctuary, exclusive to Jawa Quality Furniture.
